If aspects of the Pest Control Plan are incomplete or disapproved, the Contractor shall have 3 days to submit revisions.

#### C.4.3 TASK 3 - APPLY PESTICIDE

##### General

The Contractor shall not apply any pesticide product unless it is included in the Pest Control Plan and approved in writing by the COR. As a general rule, the Contractor shall not apply pesticides in any area unless the Contractor's inspections indicate the presence of pests in that specific area, inside or outside the premises - in any room, closet, hallway, stairwell, court, driveway, planting bed, and similar locations.

The Contractor shall deliver all materials and supplies to the site in the original unopened containers bearing the name of the manufacturer and details for proper mixing, application, storage and disposal.

The Contractor shall apprise all workers, supervisory personnel, and any other contractors who will be at the work site of the seriousness of the hazard and of proper work procedures, which must be followed.

The Contractor shall coordinate any and all pesticide use and activities with the COR before actual application. If the COR is not the POSHO, the COR will receive the approval of the POSHO before instructing the Contractor to begin application. The COR shall obtain copies of the Material Safety Data Sheets and pesticide labeling and provide them to the Contractor for the pesticides being used so that protective measures and/or spills may be properly addressed.

The COR shall provide the Contractor with the following:

- Access to all identified areas for pest control, and
- Water and electricity from outside of the work area. The Contractor shall be responsible for the tie-ins to these services.
- A designated space for the Contractor to park vehicles necessary to perform the work, if required.
- The name and phone number of at least one building authority who can be contacted 24 hours a day, if other than the COR.

## Insect Control

Pesticide Products and Use: When a professional pesticide must be used for adequate control, the Contractor shall apply an appropriate Department-authorized professional-use pesticide and comply with all instructions and precautions noted on the specimen label as well as Department specifications, which are a subset of the labeling.

The Contractor shall apply pesticides according to the label and Department specifications (refer to the Department's Integrated Pest Management Program document). All pesticides used by the Contractor must be registered and authorized by the Department. The contractor's transport, handling, and use of all pesticides shall be in strict accordance with the manufacturer's label instructions; all applicable U.S. Federal laws and regulations; and any applicable international or host country laws and regulations.

The Contractor shall minimize the use of liquid pesticide applications wherever possible. For example, as a general rule, the contractor shall apply pesticide formulations only as spot and/or crack, and crevice treatments with application devices specifically designed or modified for this purpose.

- "Crack and crevice treatment" is defined as an application in which the stream of pesticide is never visible. Small amounts of insecticides are applied into cracks and crevices in which insects hide or through which they may enter buildings. Such openings commonly occur at expansion joints, between different elements of construction, and between equipment and floors. These openings may lead to voids such as hollow walls, equipment legs and bases, conduits, motor housings, junction or switch boxes.
- "Spot applications" are limited to areas in which insects are likely to occur, but which will not be in contact with food or utensils and will not ordinarily be contacted by workers. These areas may occur on floors, walls, and bases or undersides of equipment. For this purpose, a "spot" will not exceed 3 square feet.

The Contractor shall restrict application of pesticide liquid, aerosol, or dust to exposed surfaces, and pesticide space sprays (including fogs, mists, and ultra-low volume applications), to unique situations where no alternative measures are practical. Special authorization will be required from the COR.

If the proposed pesticide is not already authorized in the Department's Integrated Pest Management Program document, the Contractor must submit a written request for authorization to the COR before applying the pesticide. The COR shall render a decision regarding the treatment before its application. The Contractor shall take all necessary precautions to ensure tenant and employee safety, and all necessary steps to ensure the containment of the pesticide to the site of application. Other than spot or crack and crevice treatments, the Contractor shall make no applications of professional-use pesticides while tenant occupants are present.

## Rodent Control

Pesticide Products and Use: Mechanical or sticky traps are the preferred method of rodent population reduction. In exceptional circumstances, when rodenticides are deemed essential for adequate rodent control inside and/or outside occupied buildings, the Contractor shall obtain the approval of the COR prior to making any interior rodenticide treatment.

All rodenticides, regardless of packaging, shall be placed either in locations not accessible to children, pets, wildlife, and domestic animals, or in EPA-approved tamper-resistant bait boxes.

The Contractor shall:

1. Place all bait boxes shall out of the general view, in locations where they will not be disturbed by routine operations.
2. Securely lock or fasten shut the lids of all bait boxes.
3. Securely attach or anchor to the floor all bait to the floor, ground, wall, or other surface, so that the box cannot be picked up or moved.
4. Place bait in the baffle-protected feeding chamber of the box and never in the runway of the box.
5. Label all bait boxes with the Contractor's business name and address, and dated at the time of installation and each servicing.

As a general rule, rodenticide application outside buildings shall target the direct treatment of rodent burrows wherever feasible. The Contractor shall be responsible for notifying the COR about the location of all rodent burrows on the premises that must be filled. The Contractor shall also be responsible for removing rodent carcasses.

The Contractor shall not store any pesticide product or container on Government property.

#### C.4.4 TASK 4 - INSPECTION AND ACCEPTANCE

After the Contractor notifies the COR that the service has been provided, the COR shall visually inspect the work area/treated area. If the work is not satisfactory, the COR shall advise the Contractor in writing. The COR shall repeat the inspection when assured that the work has been completed. The COR shall periodically conduct an unannounced site visit to observe and ensure that the Contractor is implementing all requirements specified in the Pest Control Plan.

When the work has been satisfactorily completed, the COR shall certify acceptance on the OF-127, Receiving and Inspection Report.

#### C.4.5 TASK 5 - CLEAN-UP OF AREA

Upon final acceptance by the COR, the Contractor shall remove temporary protective measures, tarps placed up for fumigation, and facilities installed for work by the Contractor. The contractor shall remove any warning placards.

The Contractor shall remove all tools, equipment and supplies from the work area. The contractor shall not leave behind pesticides, empty pesticide containers or equipment used for pesticide application in the work area.

The work area shall be free of dirt and/or debris when the project is complete. The contractor shall patch and cover all holes drilled by the Contractor with standard construction materials.

The Contractor shall comply with the Department of State's cleaning and safety regulations. The Contractor shall not:

- Burn waste materials.
- Bury debris or excess materials.
- Allow volatile, harmful or dangerous materials to enter the drainage system.

#### C.4.6 OTHER REQUIREMENTS

##### Manner and Time to Conduct Service

The Contractor shall perform routine pest control services that do not adversely affect tenant health or productivity during the regular hours of operation in buildings. When it is necessary to perform work outside of the regularly scheduled hours set forth in the Pest Control Plan, the Contractor shall notify the COR at least one day in advance.

## Safety Precautions

The Contractor shall observe all safety precautions throughout the performance of this contract and be prepared to clean up any pesticide spills. The Contractor shall provide for proper protection of applicators in accordance with label instructions and local country safety and health requirements. Certain areas within some buildings may require special instructions for persons entering the building. The COR will explain any restrictions associated with these special areas. The Contractor shall adhere to these restrictions and incorporate them into the Pest Control Plan for the specific building or site. The following areas are restricted: CAA area of U.S. Consulate General Surabaya.

The Contractor shall take appropriate continuous measures as necessary to protect all building occupants from the hazard of exposure to pesticides. The Contractor shall assume full responsibility and liability for compliance with all applicable regulations pertaining to the health and safety of personnel during the execution of work, and shall hold the Government harmless for any action on its part or that of its employees or subcontractors that results in illness or death.

## Insurance

The Contractor shall submit a certificate of comprehensive general liability insurance including bodily injury, personal injury, premises/operations, independent contractors, products and completed operations, contractual liability and broad form property damage. The insurance shall include a specific endorsement for the extension of coverage to Pest Control and pesticide applications. The State Department shall be shown on the certificate as an "additional insured". A copy of the policy shall be provided with any Certificate of Insurance. The certificate shall further provide that the State Department be given thirty (30) days prior notice of cancellation or any change in coverage. Minimum acceptable liability coverage is:

\$ 500.00 Combined Single Incident Limit for Bodily Injury and Property Damage, and

\$ 2,500 Bodily Injury and Property Damage (each occurrence)

If umbrella excess coverage is used to satisfy these limits, the certificate of insurance shall indicate that it is following the Primary Policy.

## Contractor Personnel

All Contractor personnel providing on-site pest control service must meet local requirements in the host country where service is actually performed, for training, registration, or certification as may be required by the local laws of the host country. Unqualified individuals shall not be permitted to provide service under the terms of this contract. In addition, all applicators must review, understand and abide by the pesticide labeling instructions and Department-authorized uses, which are a subset of the labeling instructions.

The COR may request removal of any Contractor personnel from the work site for cause, such as inappropriate behavior, unfit persons not skilled in the work, or lack of appropriate

equipment or materials. The Government shall not be responsible for the cost of returning or replacing this person at the work site.

#### Contractor Use of Premises

The Contractor shall confine operations to the areas specified in this contract. The contractor shall not disturb portions of the site beyond areas in which work is indicated.

The Contractor shall conform to the Post's security rules and regulations affecting the work while engaged in pesticide application or regarding personal behavior.

The Contractor shall keep existing driveways and entrances serving the premises clear and available to Post personnel and the public at all times.

The Contractor shall not unreasonably encumber the site with materials or equipment.

The Contractor shall take all necessary precautions to protect the building or site and its occupants during the application of pesticides. The COR shall provide the occupant(s) of the property(ies) to be treated with a notice of pesticide precautions focusing on whether premises should be vacated and the applicable re-entry requirements. A notification form from M/DGP/MED/EHPM is included as Exhibit 3 in Section J of this contract.

#### Owner Occupancy

The Government shall occupy the portions of the buildings not affected by the pest control operations during the period of application. The Contractor shall cooperate fully with the COR to minimize conflicts and to facilitate occupant's usage. The Contractor shall perform the work so as to interfere with Post operations as little as possible.

#### Reporting Accidents

The Contractor shall prepare and submit to the COR and the POSHO reports of significant accidents on site. The Contractor shall record and document data and actions taken in accordance with industry standards. For this purpose, a significant accident is defined to include events where personal injury is sustained, property loss is sustained, or where the event posed a significant threat of loss of property or personal injury.

### Unusual Conditions

When an unusual condition of the property or site is discovered during work (e.g., pesticide leaks on the interior of foundations, or any pesticide application which may contaminate a building or overexpose an occupant), the Contractor shall stop work immediately and advise the COR. The Contractor shall follow with a special report, if deemed necessary by the COR.

### Emergencies

The Contractor shall discuss emergency service issues with the COR or other Post personnel to reach a common understanding as to fire, ambulance, or other agencies that service the abatement work site in case of an emergency. The Contractor shall post in the work area the telephone numbers and locations of emergency services including, but not limited to, fire, ambulance, doctor, and hospital.

- (b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.
- (c) A delivery order or task order is considered “issued” when –
  - (1) If sent by mail (includes transmittal by U.S. mail or private delivery service), the Government deposits the order in the mail;
  - (2) If sent by fax, the Government transmits the order to the Contractor’s fax number; or
  - (3) If sent electronically, the Government either –
    - (i) Posts a copy of the delivery order or task order to a Government document access system, and notice is sent to the Contractor; or
    - (ii) Distributes the delivery order or task order via email to the Contractor’s email address.
- (d) Orders may be issued by methods other than those enumerated in this clause only if authorized in the contract.

(End of clause)

I.2.2 52.216-19 ORDER LIMITATIONS (OCT 1995)

- (a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than \$ 100.00, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.
- (b) Maximum order. The Contractor is not obligated to honor—
  - (1) Any order for a single item in excess of \$ 6,000;
  - (2) Any order for a combination of items in excess of \$ 30,000; or
  - (3) A series of orders from the same ordering office within 5 days days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.
- (c) If this is a requirements contract (i.e., includes the Requirement clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.
- (d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 3 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

I.2.3 52.216-22 INDEFINITE QUANTITY (OCT 1995)

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum." The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum."

(c) Except for any limitations on quantities in the Deliver-Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after one year beyond the contract's effective period.

I.2.4 52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within the performance period of the contract.

I.2.5 52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within the performance period of the contract or within 30 days after funds for the option year become available, whichever is later.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed five (5) years

I.2.6 RESERVED

I.2.7 52.232-19 AVAILABILITY OF FUNDS FOR THE NEXT FISCAL YEAR.  
(APR 1984)

Funds are not presently available for performance under this contract beyond 30 September of the current calendar year. The Government's obligation for performance of this contract beyond that date is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise for performance under this contract beyond 30 September of the current calendar year, until funds are made available to the Contracting Officer for performance and until the Contractor receives notice of availability, to be confirmed in writing by the Contracting Officer.

I.2.8 52.229-12 TAX ON CERTAIN FOREIGN PROCUREMENTS—NOTICE AND REPRESENTATION (FEB 2021)

(a) *Definitions.* As used in this clause—

*Foreign person* means any person other than a United States person.

*United States person*, as defined in [26 U.S.C. 7701\(a\)\(30\)](#), means—

- (1) A citizen or resident of the United States;
- (2) A domestic partnership;
- (3) A domestic corporation;
- (4) Any estate (other than a foreign estate, within the meaning of [26 U.S.C. 7701\(a\)\(31\)](#)); and

(5) Any trust if-

(i) A court within the United States is able to exercise primary supervision over the administration of the trust; and

(ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) This clause applies only to foreign persons. It implements [26 U.S.C. 5000C](#) and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c)

(1) If the Contractor is a foreign person and has only a partial or no exemption to the withholding, the Contractor shall include the Department of the Treasury Internal Revenue Service Form W-14, Certificate of Foreign Contracting Party Receiving Federal

Procurement Payments, with each voucher or invoice submitted under this contract throughout the period in which this status is applicable. The excise tax withholding is applied at the payment level, not at the contract level. The Contractor should revise each IRS Form W-14 submission to reflect the exemption (if any) that applies to that particular invoice, such as a different exemption applying. In the absence of a completed IRS Form W-14 accompanying a payment request, the default withholding percentage is 2 percent for the section 5000C withholding for that payment request. Information about IRS Form W-14 and its separate instructions is available via the internet at [www.irs.gov/w14](http://www.irs.gov/w14).

(2) If the Contractor is a foreign person and has indicated in its offer in the provision [52.229-11](#), Tax on Certain Foreign Procurements—Notice and Representation, that it is fully exempt from the withholding, and certified the full exemption on the IRS Form W-14, and if that full exemption no longer applies due to a change in circumstances during the performance of the contract that causes the Contractor to become subject to the withholding for the 2 percent excise tax then the Contractor shall—

(i) Notify the Contracting Officer within 30 days of a change in circumstances that causes the Contractor to be subject to the excise tax withholding under [26 U.S.C. 5000C](#); and

(ii) Comply with paragraph (c)(1) of this clause.

(d) The Government will withhold a full 2 percent of each payment unless the Contractor claims an exemption. If the Contractor enters a ratio in Line 12 of the IRS Form W-14, the result of Line 11 divided by Line 10, the Government will withhold from each payment an amount equal to 2 percent multiplied by the contract ratio. If the Contractor marks box 9 of the IRS Form W-14 (rather than completes Lines 10 through 12), the Contractor must identify and enter the specific exempt and nonexempt amounts in Line 15 of the IRS Form W-14; the Government will then withhold 2 percent only from the nonexempt amount. See the IRS Form W-14 and its instructions.

(e) Exemptions from the withholding under this clause are described at 26 CFR 1.5000C-1(d)(5) through (7). Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the [26 U.S.C. 5000C](#) tax are adjudicated by the IRS as the [26 U.S.C. 5000C](#) tax is a tax matter, not a contract issue.

(f) Taxes imposed under [26 U.S.C. 5000C](#) may not be—

(1) Included in the contract price; nor

(2) Reimbursed.

(g) A taxpayer may, for a fee, seek advice from the Internal Revenue Service (IRS) as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.

If the Contractor's personnel work on a holiday, no form of holiday or other premium compensation will be reimbursed either as a direct or indirect cost, unless authorized pursuant to an overtime clause elsewhere in this contract.

(c) When the Department of State grants administrative leave to its Government employees, assigned Contractor personnel in Government facilities shall also be dismissed. However, the Contractor agrees to continue to provide sufficient personnel to perform round-the-clock requirements of critical tasks already in operation or scheduled, and shall be guided by the instructions issued by the Contracting Officer or his/her duly authorized representative.

(d) For fixed-price contracts, if services are not required or provided because the building is closed due to inclement weather, unanticipated holidays declared by the President, failure of Congress to appropriate funds, or similar reasons, deductions will be computed as follows:

- (1) The deduction rate in dollars per day will be equal to the per month contract price divided by 21 days per month.
- (2) The deduction rate in dollars per day will be multiplied by the number of days services are not required or provided.

If services are provided for portions of days, appropriate adjustment will be made by the Contracting Officer to ensure that the Contractor is compensated for services provided.

(e) If administrative leave is granted to contractor personnel as a result of conditions stipulated in any "Excusable Delays" clause of this contract, it will be without loss to the Contractor. The cost of salaries and wages to the Contractor for the period of any such excused absence shall be a reimbursable item of direct cost hereunder for employees whose regular time is normally charged, and a reimbursable item of indirect cost for employees whose time is normally charged indirectly in accordance with the Contractor's accounting policy.

I.2.15 652.225-71 SECTION 8(A) OF THE EXPORT ADMINISTRATION ACT OF 1979, as amended (AUG 1999)

(a) Section 8(a) of the U.S. Export Administration Act of 1979, as amended (50 U.S.C. 2407(a)), prohibits compliance by U.S. persons with any boycott fostered by a foreign country against a country which is friendly to the United States and which is not itself the object of any form of boycott pursuant to United States law or regulation. #### NOTE TO THE COR

**Prior to resorting to the use of chemical pesticides, the infestation should be confirmed and the effectiveness of self-help and prevalence reduction measures clearly demonstrated.**

**When chemical pesticides are authorized, post should ensure that no substitutions are made with product (s) other than listed on the approved Post Pest Control Plan.**

**The COR will notify occupants of the precautions and schedule to vacate treated space and not to reenter until \_\_\_ hours after the pesticide application (re-entry time depends on pesticide and extent of application and dry time).**

**Table 1  
DEPARTMENT-RECOMMENDED EPA-REGISTERED SELF-HELP PESTICIDES FOR COMMON PESTS**

An active self-help program can empower residents to address pest problems when the population is small. Traps, fly swatters, caulk, etc. can be highly effective pesticide-free measures. The Department defines a self-help pesticide as a consumer pesticide product intended for use by individuals with no special equipment or training. All pesticides must be appropriate for the target pest and situation, be free of highly toxic ingredients, and have clear instructions. Preferably, they should be “ready-to-use” (require no diluting). The EPA registered products listed are available from various sources including **DSCR** and **UNIVAR**. However, posts are not limited to using these self-help pesticides and good products may be available locally. OBO/OPS/SHEM is available to review local self-help products.

## EXHIBIT 3 - PESTICIDE APPLICATION NOTIFICATION

---

This form is to be used by posts to formally authorize and document the conditions under which a contractor can apply pesticides in Department-owned/leased residences. As requested, an inspection of this property has been conducted and the following treatment plan is authorized. This form is to be given to residence occupants at least 24 hours before application.

A pesticide applicator has been hired to come to your home or office to treat for pests, which you have been unable to control by other non-chemical means. The vendor has been authorized to use a product that is EPA registered or Department approved for the specific pest and application. Each pesticide is indicated for certain pests and must be applied according to the manufacturer's directions. Spraying into cracks and crevices where the pests live is very common. The Department mandates that post only use EPA-registered and Department approved pesticides, which have detailed instructions regarding use of the product. Pesticide labels and other safety related information should be available from the GSO, POSHO or health unit.

All pesticides are poisons and are used judiciously to combat pests, which, in addition to being a nuisance, may pose health risks and/or cause of significant property damage. A/FBO/OPS/SAF (SHEM) does not recommend the use pesticide powders or dusts. Should there be an exception to the general rule, the applicator should remove any residual pesticide, which is accessible to occupants or pets. You can reduce your exposure to pesticides by following the steps indicated below:

- Vacate any location where pesticides are being applied in spray form. This includes any household pets. If you have fish, consider covering the aquarium with plastic if it is too large to move. Some pesticides may be quite toxic to fish or other aquatic life.
- Remove toys from the area to be treated.
- Remove food, dishes, post, pans and other cooking/eating utensils before treating kitchen cabinets. Pesticides should not be allowed to contact any surface/object that will contact food. Wait until the shelves dry before refilling them. If it's possible that contact occurred, wash the items thoroughly with soap and hot water before use.
- Allow adequate ventilation following the application of pesticides indoors. When spraying will occur outdoors, close the windows of your home. It may be difficult to predict how long the treated space should be vacated; however, all sprayed surfaces should be dry. Usually a minimum of one to two hours will be necessary. Although odor is not necessarily the best indicator of exposure, ventilation should be increased in areas where the odor is bothersome.
- Do not use surface sprays to treat entire floors, walls or ceilings even though such "broadcast" applications may be listed on the product label.
- Do not place rodent or insect baits where small children or pets can reach them. Tamper-proof bait stations should be used whenever rodent bait is being used. The granules of bait should never be applied loose since pets or small children may mistake these for food.
- Perform pest prevalence reduction and self-help measures to reduce or eliminate the need for chemical pesticide treatment.
- Follow instructions on the pesticide label.

**K.7 52.209-5 Certification Regarding Responsibility Matters (AUG 2020)**

(a)

(1) The Offeror certifies, to the best of its knowledge and belief, that—

(i) The Offeror and/or any of its Principals—

(A) Are  are not  presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have  have not , within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see [52.209-7](#), if included in this solicitation);

(C) Are  are not  presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision;

(D) Have , have not , within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at [9.104-5\(a\)\(2\)](#) for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) *Examples.*

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has  has not , within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principal," for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (*e.g.*, general manager; plant manager; head of a division or business segment; and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). \_\_ (2) The Offeror is providing separate information with its offer in accordance with paragraph (d)(2) of this provision.

(c) Procedures for reviewing the annual unclassified report (see paragraph (b)(1) of this provision). For clarity, references to the report in this section refer to the entirety of the annual unclassified report, including any separate reports that are incorporated by reference into the annual unclassified report.

(1) Check the table of contents of the annual unclassified report and the country section headings of the reports incorporated by reference to identify the foreign countries listed there. Determine whether the Offeror or any person owned or controlled by the Offeror may have engaged in any activity related to one or more of such foreign countries.

(2) If there may have been such activity, review all findings in the report associated with those foreign countries to determine whether or not each such foreign country was determined to be in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or to be not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. For clarity, in the annual report an explicit certification of non-compliance is equivalent to a determination of violation. However, the following statements in the annual report are not equivalent to a determination of violation:

(i) An inability to certify compliance.

(ii) An inability to conclude compliance.

(iii) A statement about compliance concerns.
